Pasture Weed Management Guide

A guide to managing pasture weeds, from identification to control choices, for producers who need to protect forage productivity. Use it as a reference in the field or office, and adapt the steps to your own operation.

Farm / unit: _____ Date: _____ By: _____

1. Identify weeds and note their life cycle
2. Map where infestations occur
3. Check soil fertility and grazing pressure
4. Choose cultural controls first
5. Consider mowing or timing options
6. Review herbicide labels for grazing limits
7. Apply per the product label
8. Record results and follow up

YOUR NOTES

TIP Read the herbicide label for grazing and hay restrictions and ask your extension office for local guidance.
