Portable Fence Setup Guide

A step by step guide to setting up portable electric fence for rotational grazing, for livestock producers moving animals between temporary paddocks. Use it as a reference in the field or office, and adapt the steps to your own operation.

Farm / unit: _____ Date: _____ By: _____

1. Plan the fence route and water access
2. Gather posts, reels and charger
3. Check the charger and ground system
4. Set corner posts first
5. Run the wire and tension it evenly
6. Add gates and a crossing point
7. Test the fence end to end
8. Move animals and record the shift

YOUR NOTES

TIP Follow the charger manual for grounding and use a fence tester before every move.
