Sheep & Cattle Grazing Compatibility Worksheet

A worksheet for judging whether sheep and cattle can graze together, comparing forage use, fencing and health. Work through it top to bottom, using your own records, and revisit it when conditions change.

Farm / unit: _____ Date: _____ By: _____

Pasture and forage type _____

Cattle class and numbers _____

Sheep class and numbers _____

Forage preferences _____

Fence suitability _____

Predator concerns _____

Copper and mineral cautions _____

Decision notes _____

NOTES / CALCULATIONS

TIP Ask your veterinarian and extension office about mineral and parasite issues before mixing species.
