Alley Cropping Design Template

An alley cropping design template for planning tree rows with crops grown between them. Use it to document layout, species, equipment access, and care.

Farm / unit: _____ Date: _____ By: _____

Field description

Crop and tree goals

Row orientation

Tree species chosen

Alley crop plan

Equipment access needs

Tree protection plan

Pruning and thinning plan

Harvest and income plan

TIP Match alley width to the equipment you actually own so you can work between the rows safely.
