# Forest Insect Outbreak Response Plan

A forest insect outbreak response plan template for woodland owners. Use it to outline detection, reporting, treatment choices, and recovery steps.

Farm / unit: _____ Date: _____ By: _____

## Insect of concern

## Signs and symptoms

## Monitoring plan

## Reporting contacts

## Affected area map

## Treatment options considered

## Sanitation and removal steps

## Replanting and recovery plan

## Review schedule

**TIP** Report suspected outbreaks to your state forestry agency early so experts can confirm the problem.
