Forest Management Plan Template

A forest management plan template for woodland owners to set goals, describe stands, and schedule work. Use it to organize what you own and what you want from it over the coming years.

Farm / unit: _____ Date: _____ By: _____

Ownership and goals

Property description

Stand descriptions

Soils and water

Wildlife and habitat

Planned activities

Harvest approach

Protection and safety

Monitoring and review

TIP Share the draft with your state forester or extension forester so they can check it against local practices.
