Forest Nutrient Management Guide

A forest nutrient management guide for owners thinking about fertilizer or soil amendments in woodlands. It lists steps to check needs before applying anything.

Farm / unit: _____ Date: _____ By: _____

1. Define your management goal
2. Review soil test results
3. Check tree nutrient signs
4. Consider site history
5. Talk with a forester
6. Choose product and method
7. Protect streams from runoff
8. Apply per the label
9. Record the application

YOUR NOTES

TIP Test before you fertilize and follow product labels and state rules, since extra nutrients can harm water.
