Invasive Plant Management Plan for Forests

An invasive plant management plan template for forest owners. Use it to map infestations, set priorities, choose control methods, and track follow-up work.

Farm / unit: _____ Date: _____ By: _____

Target invasive species

Infestation map and size

Priority areas

Control methods considered

Timing of treatments

Equipment and cleaning

Native replanting plan

Monitoring schedule

Partners and help

TIP Check labels and your state rules before any herbicide use, and clean boots and gear to avoid spreading seeds.
