Lodgepole Pine Management Guide

A lodgepole pine management guide for owners of lodgepole stands. It lists steps for stand checks, pest watching, and planning harvest.

Farm / unit: _____ Date: _____ By: _____

1. Map the lodgepole stands
2. Check stand age and density
3. Watch for beetle activity
4. Note fuel loads
5. Plan thinning
6. Plan harvest
7. Plan regeneration
8. Protect water and soil
9. Review the stand each year

YOUR NOTES

TIP Talk with your state forestry agency about beetle and fire risk in your area before planning any work.
