Maple Management Guide

A maple management guide for owners of sugar and other maple stands. It lists steps for checking stands, thinning, and protecting trees.

Farm / unit: _____ Date: _____ By: _____

1. Map the maple stands
2. Check tree health
3. Note regeneration
4. Plan thinning
5. Protect from damage
6. Watch for pests and disease
7. Plan access
8. Consider tapping use
9. Review the stand each year

YOUR NOTES

TIP Ask your forester which maples to favor, because crown size and health matter for long-term stand quality.
