Urban Tree Canopy Assessment

An urban tree canopy assessment worksheet for estimating tree cover in a community. Use it to note areas with low cover and set planting priorities.

Farm / unit: _____ Date: _____ By: _____

Community or area name _____

Assessment method used _____

Imagery or map source _____

Canopy cover findings _____

Low cover neighborhoods _____

Heat and shade concerns _____

Planting opportunities _____

Partners involved _____

Next steps _____

NOTES / CALCULATIONS

TIP Use consistent maps and methods each time so changes in canopy can be compared over the years.
