Urban Wood Utilization Guide

An urban wood utilization guide for cities, tree crews, and woodworkers who want to use removed trees. It lists steps to keep good wood out of the landfill.

Farm / unit: _____ Date: _____ By: _____

1. Identify trees being removed
2. Note species and size
3. Find local mills or users
4. Plan log handling
5. Protect logs from drying too fast
6. Sort logs by use
7. Arrange transport
8. Track what was used
9. Share results with partners

YOUR NOTES

TIP Contact local sawyers and woodworkers before a removal so good logs have a place to go.
