Wind Damage Assessment Form

A wind damage assessment form for recording blowdown and broken trees after high wind. Use it to document stand losses and plan safe cleanup.

Farm / unit: _____ Date: _____ By: _____

Date of wind event _____

Stand assessed _____

Species affected _____

Trees uprooted _____

Trees snapped _____

Hazards from tangled trees _____

Road and trail blockage _____

Photos taken _____

Salvage or cleanup plan _____

NOTES / CALCULATIONS

TIP Blowdown piles hold tension and can move suddenly, so leave tangled trees to trained and equipped crews.
