Farm Password Manager Setup

A farm password manager setup guide for owners and crew who want to store logins safely, covering how to choose an app, set a master password and share access carefully.

Farm / unit: _____ Date: _____ By: _____

1. Choose a reputable password manager
2. Create a strong master password
3. Turn on two-step sign-in
4. Import saved logins
5. Update weak or reused passwords
6. Set up shared items for crew
7. Store the recovery key safely
8. Remove access when workers leave
9. Review accounts each year

YOUR NOTES

TIP Write the master password and recovery details on paper and store them somewhere locked, not in the app.
