Farm Project Timeline Template

A farm project timeline template for sequencing tasks, milestones and dependencies on a project, so owners can plan work around seasons, weather and crew availability.

Farm / unit: _____ Date: _____ By: _____

Project name

Start target

Key milestones

Task sequence

Who does each task

Lead times for materials

Weather or season limits

Inspection or approval points

Buffer for delays

Completion target

TIP Work backward from the date you need the project finished and add buffer time.
