Seasonal Farm Task Schedule

A seasonal farm task schedule that walks through the main jobs to plan as one season hands off to the next, for owners who want a repeatable yearly rhythm.

Farm / unit: _____ Date: _____ By: _____

1. List jobs each season carries over
2. Note crop and pasture work by season
3. Note livestock management by season
4. Add equipment service before busy times
5. Add building and fence repair windows
6. Plan labor needs per season
7. Mark paperwork and program dates
8. Add local weather and frost notes
9. Review and adjust after each season

YOUR NOTES

TIP Check your local extension office for region-specific timing, then write your own dates into the margins.
