Bean Production Guide

A production guide for bean growers, covering bush and pole types. It walks through planting, support, care, and harvest so you can keep notes by variety.

Farm / unit: _____ Date: _____ By: _____

1. Choose bush or pole varieties
2. Plant after soil warms
3. Inoculate seed if recommended
4. Set trellis for pole beans
5. Water at flowering and pod set
6. Scout for beetles and disease
7. Harvest at the right pod stage
8. Note variety yield and quality

YOUR NOTES

TIP Pick often to keep plants producing, and write down which varieties held up in wet weather.
