# Frost Protection for Orchards

A guide to frost protection for orchards. It helps growers plan how to watch weather and respond when buds and blossoms are at risk. Keep a printed copy handy and fill it in as you work.

Farm / unit: _____ Date: _____ By: _____

1. Know your bloom stages
2. Monitor forecasts and local temperatures
3. Place thermometers in key spots
4. Plan the method you will use
5. Prepare equipment before bloom
6. Set a call-out plan for the crew
7. Record events and results
8. Review each season

**YOUR NOTES**

**TIP** Check weather alerts through the National Weather Service and keep logs of events and what you did.
