Greenhouse Heating Cost Calculator

Estimate greenhouse heating costs. Growers record fuel use and conditions so they can compare seasons and test savings ideas. Fill it in by hand and file it so you can compare notes year to year.

Farm / unit: _____ Date: _____ By: _____

Greenhouse size and type _____

Heating source and fuel _____

Typical set point per crop _____

Fuel use per period _____

Cost per unit of fuel _____

Weather notes and notes _____

Savings ideas tested _____

Total cost and review _____

NOTES / CALCULATIONS

TIP Use your own bills and meter readings, and check extension energy resources for savings ideas.
