Horticulture Farm Energy Audit

Use this worksheet for a farm energy audit. Growers list energy uses and savings ideas to cut waste. Fill it in by hand and file it so you can compare notes year to year.

Farm / unit: _____ Date: _____ By: _____

Energy sources on the farm _____

Main uses by building or system _____

Equipment age and condition _____

Seasonal use patterns _____

Savings ideas to try _____

Cost and payback notes _____

Programs and support to check _____

Plan and review _____

NOTES / CALCULATIONS

TIP Ask your utility and USDA programs about audits and support. Keep the finished copy for reference.
