Leek Production Guide

A production guide for leek growers. It lays out transplant care, planting, blanching, and harvest, with space for your own variety notes. Use a fresh copy each season and keep old ones for comparison.

Farm / unit: _____ Date: _____ By: _____

1. Start leeks early from seed
2. Prepare deep, fertile beds
3. Transplant in trenches or holes
4. Hill soil to blanch stems
5. Water evenly through growth
6. Control weeds and thrips
7. Harvest by variety and need
8. Clean and trim for sale

YOUR NOTES

TIP Leeks grow slowly, so write down seeding and transplant dates and compare with harvest results.
