Pepper Production Guide

A production guide for pepper growers covering sweet and hot types. It walks through variety choice, transplants, field care, and harvest so you can record what works.

Farm / unit: _____ Date: _____ By: _____

1. Choose varieties for your market
2. Start transplants on schedule
3. Prepare beds and soil
4. Set transplants after frost risk
5. Plan watering and feeding
6. Support heavy-fruited plants
7. Scout for pests and disease
8. Harvest with gloves where needed

YOUR NOTES

TIP Wear gloves when handling hot types, and keep notes on yield and heat level by variety.
