Rhubarb Production Guide

A production guide for rhubarb growers. It covers crown planting, bed care, and harvest, and leaves room for notes on variety and bed history. Keep a printed copy handy and fill it in as you work.

Farm / unit: _____ Date: _____ By: _____

1. Pick a sunny, well-drained site
2. Prepare soil with compost
3. Plant crowns shallow and firm
4. Mulch and control weeds
5. Water through dry spells
6. Divide older crowns when crowded
7. Harvest stalks only, not leaves
8. Rest the plant after heavy picking

YOUR NOTES

TIP Rhubarb leaves are not edible, so label and sell stalks only, and tell customers.
