Trap Crop Planning Worksheet

Plan a trap crop around a main crop. Growers choose the pest, trap plant, and layout, then record how well the trap plants worked. Keep a printed copy handy and fill it in as you work.

Farm / unit: _____ Date: _____ By: _____

Main crop to protect _____

Target pest and notes _____

Trap crop chosen _____

Layout and location _____

Planting date and notes _____

Scouting plan and notes _____

Action plan for the pest _____

Results and notes _____

NOTES / CALCULATIONS

TIP Plant trap crops before the main crop and write down pest counts to see if it helped.
