Vegetable Fertilizer Program

Plan a vegetable fertilizer program around soil test results and crop needs. Growers write down sources, timing, and notes so the plan matches the soil and the crop.

Farm / unit: _____ Date: _____ By: _____

Field or bed and crop _____

Date of last soil test _____

Soil test recommendations noted _____

Fertilizer or amendment chosen _____

Application method planned _____

Planned timing by crop stage _____

Product label reviewed _____

Results and yield notes _____

NOTES / CALCULATIONS

TIP Base amounts on your soil test and local extension advice, and always follow the product label.
