Weed Management for Vegetables

A planning guide for managing weeds in vegetable crops. Growers use it to line up cultural, mechanical, and other tools by crop stage and keep notes on what works.

Farm / unit: _____ Date: _____ By: _____

1. List the main weeds in each field
2. Plan bed prep and stale seedbed
3. Choose cultivation tools
4. Time passes by crop stage
5. Use mulch or cover where practical
6. Follow herbicide labels if used
7. Clean equipment between fields
8. Record results and escapes

YOUR NOTES

TIP Scout often, act while weeds are small, and write down which tools worked on which weeds.
