Xeriscape Planning Guide

A planning guide for xeriscape. It helps users design a water-wise landscape with suitable plants, soil, and irrigation. Keep a printed copy handy and fill it in as you work.

Farm / unit: _____ Date: _____ By: _____

1. Map sun and soil
2. Group plants by water need
3. Choose drought-tolerant plants
4. Improve soil and mulch
5. Plan efficient irrigation
6. Limit lawn area
7. Plan maintenance each season
8. Record results by season

YOUR NOTES

TIP Water young plants well while they establish, and note which species handle your site best.
