Equipment Fire Response Procedure

A response procedure template for equipment fires, outlining steps for alerting crews, staying safe, using extinguishers, and calling emergency services.

Farm / unit: _____ Date: _____ By: _____

Purpose and machines covered

Who is in charge during a fire

Steps to alert people nearby

Steps to shut down and move away

When to use an extinguisher and when not

How to call emergency services

How to give directions to the site

Meeting point and headcount

Steps after the fire is out

TIP Practice the plan with every operator and talk to your local fire department about how to improve it.
