Feed Mixer Wagon Calibration Worksheet

A calibration worksheet for feed mixer wagons that helps record scale checks, load order, and batch weights so rations come out the same each time.

Farm / unit: _____ Date: _____ By: _____

Mixer make and model _____

Scale indicator checked against known weight _____

Ration name and animal group _____

Ingredient list in loading order _____

Target and actual loaded amounts _____

Mix time used _____

Knife and auger condition _____

Adjustments made _____

Date and person checking _____

NOTES / CALCULATIONS

TIP Ask your nutritionist or extension office to review ration targets, and recheck the scale on a regular schedule.
