Implement Hitch & Safety Chain Inspection

An inspection form for implement hitches and safety chains, so owners can document pins, clevises, chains, and drawbars before towing equipment on the farm or the road.

Farm / unit: _____ Date: _____ By: _____

Tractor and implement name _____

Inspector name and date _____

Drawbar and clevis condition _____

Hitch pin and clip in place _____

Safety chain present and rated _____

Chain links and hooks not worn _____

Chain crossed and attached properly _____

Tongue and jack condition _____

Lights connected if used _____

Repairs needed and assigned to _____

NOTES / CALCULATIONS

TIP Replace any bent pin or stretched chain right away, and match hitch parts to the equipment maker's guidance.
