# Jack & Jack Stand Safety Guide

A safety guide for using jacks and jack stands around the farm shop, giving steps for lifting, supporting, and lowering machinery.

Farm / unit: _____ Date: _____ By: _____

1. Check the jack and stands for damage
2. Work on firm, level ground
3. Chock the wheels that stay on the ground
4. Place the jack at lift points per the manual
5. Raise the machine slowly
6. Place jack stands before working under
7. Test that the load is stable
8. Never rely on the jack alone
9. Lower slowly and remove stands last

**YOUR NOTES**

**TIP** Use stands rated for the machine and never crawl under anything held only by a jack.
