# Loader Bucket Wear Inspection Log

A wear inspection log for loader buckets, tracking cutting edge, teeth, bottom, sidewalls, and welds so worn parts are replaced before they damage the bucket.

Farm / unit: _____ Date: _____ By: _____

| Date | Bucket | Area inspected | Wear noted | Repair done | Initials |
|---|---|---|---|---|---|
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |

**TIP** Take a photo of the cutting edge at each inspection so wear over time is easy to compare.
