Quick Hitch Compatibility Guide

A reference guide for checking quick hitch compatibility between tractors and implements, helping owners confirm category, pin size, and lock fit before buying or using one.

Farm / unit: _____ Date: _____ By: _____

1. Find the tractor hitch category in the manual
2. Note the implement hitch category
3. Measure lower link pin sizes
4. Check top link pin size and reach
5. Check lift capacity needed for implements
6. Confirm clearance for PTO shaft
7. Check the lock engages visibly
8. Test with implement lifted slightly
9. Record the matched setup

YOUR NOTES

TIP Confirm fit with your dealer or the quick hitch maker before use, as mismatches can drop an implement.
