Sprayer Boom Height & Alignment Form

A form to record sprayer boom height and alignment checks, helping operators confirm the boom is level and set for the nozzles and target in use.

Farm / unit: _____ Date: _____ By: _____

Sprayer and boom name _____

Operator name and date _____

Nozzle type installed _____

Target height per nozzle chart _____

Boom height measured at left _____

Boom height measured at center _____

Boom height measured at right _____

Boom frame and folds checked _____

Corrections made and notes _____

NOTES / CALCULATIONS

TIP Check boom height against the nozzle maker's chart and recheck after any repair, since a bent boom changes coverage.
