Telehandler Pre-Use Inspection Form

A pre-use inspection form for telehandlers that documents the checks an operator completes before lifting, including controls, tires, forks, and safety devices.

Farm / unit: _____ Date: _____ By: _____

Telehandler unit and attachment _____

Operator name and date _____

Fluid levels and leaks checked _____

Tires and wheel nuts checked _____

Boom and carriage condition _____

Forks or attachment secured _____

Load chart present and readable _____

Outriggers and controls work _____

Alarm, lights, and horn work _____

Defects found and action taken _____

NOTES / CALCULATIONS

TIP Only trained operators should use a telehandler, and any failed safety device means tag it out and fix it first.
