UTV Seed Spreader Settings Guide

A settings guide for UTV seed spreaders that helps you record seed type, gate settings, speed, and test results for even seeding on small areas.

Farm / unit: _____ Date: _____ By: _____

1. Read the spreader manual
2. Check the hopper, agitator, and gate
3. Note the seed type and lot
4. Set the gate to the starting mark
5. Choose and hold a steady speed
6. Do a test pass on a tarp or pavement
7. Compare results to your planned rate
8. Adjust and test again
9. Record the final setting

YOUR NOTES

TIP Ask your extension office about seed mixes and rates for your site, and calibrate again for each seed type.
