Farm Cidery Business Plan Template

A farm cidery business plan template for orchards and fruit growers planning to press and sell cider. It organizes the concept, fruit supply, production, rules, and finances for review.

Farm / unit: _____ Date: _____ By: _____

Cidery concept and location

Apple and fruit sources

Target customers

Ciders and products planned

Pressing and fermenting equipment

Licenses and permits to confirm

Tasting room and sales plan

Startup costs and funding

Risks and next steps

TIP Confirm licensing and labeling rules with your state agency before you commit money to equipment or space.
