Bt (Bacillus thuringiensis) Application Log

This Bacillus thuringiensis (Bt) application log lets you record each Bt treatment for caterpillar pests, with timing against pest stage, weather and results. It suits farm owners, scouts and crew who want a consistent written record.

Farm / unit: _____ Date: _____ By: _____

Date	Field	Pest	Product	Weather	Initials

TIP Apply when young larvae are present and follow the label, since Bt must be eaten to work.
