Buffer Zone Planning Worksheet

Use this buffer zone planning worksheet to map and record the setbacks you keep around water, homes, roads and sensitive crops before applying products near them.

Farm / unit: _____ Date: _____ By: _____

Field and application name _____

Product and label setback notes _____

Nearby water or wells _____

Nearby homes or public areas _____

Neighboring sensitive crops _____

Buffer plant cover in place _____

Wind direction to avoid _____

Buffer chosen and who approved _____

NOTES / CALCULATIONS

TIP Take required distances from the product label and check state rules, and sketch the buffer on a farm map.
