Grasshopper Management Guide

Use this grasshopper management guide to plan scouting and control in pastures and crops, with steps to record counts, timing and treatment results. It suits farm owners, scouts and crew who want a consistent written record.

Farm / unit: _____ Date: _____ By: _____

1. Note fields at risk
2. Scout field edges first
3. Record counts and stage
4. Track weather and development
5. Compare with local thresholds
6. Choose control per label
7. Protect beneficial insects
8. Record results and follow up

YOUR NOTES

TIP Control works best on young stages, so ask extension about timing for your area.
