Insectary Planting Plan

Use this insectary planting plan template to lay out flowering strips that feed beneficial insects, with sections for site, plants, timing and care. It suits farm owners, scouts and crew who want a consistent written record.

Farm / unit: _____ Date: _____ By: _____

Site and size sketch

Goals for the planting

Plant choices

Bloom times covered

Soil preparation

Planting method and date

Weed and water care

Monitoring and results

TIP Pick plants suited to your region and check with extension or NRCS for seed mixes that fit.
