# Integrated Pest Management (IPM) Plan Template

Use this Integrated Pest Management (IPM) plan template to outline how your farm will prevent, monitor and manage pests, so everyone who works the operation follows the same written approach.

Farm / unit: _____ Date: _____ By: _____

## Farm and crop overview

## Key pests and problem fields

## Prevention and cultural practices

## Scouting methods and schedule

## Action levels and decision points

## Control options in order of preference

## Record keeping and review

## Roles and training

**TIP** Fill in the plan with your crop advisor or extension agent, then revisit it after each season to update what worked.
