IPM Scouting Form for Vegetables

Use this IPM scouting form for vegetables to log pest, disease and weed findings block by block, helping market growers decide when action is justified and when to keep watching.

Farm / unit: _____ Date: _____ By: _____

Block or bed name _____

Crop and variety _____

Scout and date _____

Growth stage _____

Insect pests found _____

Disease symptoms noted _____

Weed pressure _____

Beneficial insects seen _____

Follow-up needed _____

NOTES / CALCULATIONS

TIP Check the undersides of leaves and the plant base, since many vegetable pests hide there and are missed from above.
