Mode of Action Rotation Worksheet

This mode of action rotation worksheet gives you lines to plan the sequence of products used on each crop, so you avoid repeating one chemical group and slowing resistance.

Farm / unit: _____ Date: _____ By: _____

Crop and field _____

Target pest or disease _____

Product used and date _____

Mode of action group per label _____

Next product planned _____

Alternate options _____

Non chemical controls used _____

Review notes _____

NOTES / CALCULATIONS

TIP Copy group codes straight from the label and keep this sheet with your spray records for each field.
