Mulching for Weed Suppression

Use this mulching for weed suppression guide to plan which mulch to use, how to lay it and how to keep records, so weeds stay down without harming your crops.

Farm / unit: _____ Date: _____ By: _____

1. Choose the crop and bed
2. Select a mulch material
3. Prepare the soil surface first
4. Lay mulch to even coverage
5. Keep mulch off plant stems
6. Check for weeds breaking through
7. Refresh mulch where thin
8. Record cost and weed results

YOUR NOTES

TIP Check mulch sources for weed seed and herbicide residue, and ask extension about the materials that suit your crops.
