Nozzle Selection Guide

This nozzle selection guide helps applicators choose and record spray nozzle type and size for each job, matching nozzle to product, target and drift risk.

Farm / unit: _____ Date: _____ By: _____

1. Read the product label for nozzle advice
2. Identify the spray target
3. Choose the nozzle type
4. Check the manufacturer's chart for size
5. Confirm spray pattern and coverage
6. Check nozzle wear and cleanliness
7. Record the nozzle used
8. Review drift risk before spraying

YOUR NOTES

TIP Follow the product label and the nozzle maker's chart rather than habit, and replace worn nozzles per the manufacturer.
