Pesticide Label Interpretation Guide

This pesticide label interpretation guide walks through the parts of a pesticide label so applicators can find the directions, restrictions and safety information before each use.

Farm / unit: _____ Date: _____ By: _____

1. Find the product name and active ingredient
2. Read signal word and hazard statements
3. Check the crop and pest listed
4. Find mixing and application directions
5. Note personal protective equipment
6. Note restricted entry and harvest limits
7. Read storage and disposal directions
8. Note environmental cautions

YOUR NOTES

TIP Read the full label before each use, since the label is the legal document and can change between product versions.
