Root-Knot Nematode Assessment

This root-knot nematode assessment form lets you record root galling and plant symptoms across a field, so you can judge the severity and plan rotation or resistant crops.

Farm / unit: _____ Date: _____ By: _____

Field and crop _____

Date and assessor _____

Growth stage _____

Plants dug and checked _____

Gall rating per extension scale _____

Above ground symptoms _____

Soil type notes _____

Plan for next crop _____

NOTES / CALCULATIONS

TIP Dig roots rather than pulling them, and ask extension which rating scale to use for your crop.
