Spider Mite Sampling Form

Use this spider mite sampling form to note mite counts, plant damage and weather, since mites build up fast in hot, dry conditions and need regular checking.

Farm / unit: _____ Date: _____ By: _____

Field and crop _____

Date and scout _____

Plants sampled _____

Mite counts or rating _____

Webbing or stippling seen _____

Predator mites seen _____

Weather and dust notes _____

Decision and follow up _____

NOTES / CALCULATIONS

TIP Use a hand lens on the underside of leaves and sample edges first, where mites tend to start.
