Poultry | WORKSHEET

Egg Production Monthly Summary

An egg production monthly summary worksheet that rolls daily egg counts into one month of totals. Poultry producers use it to compare flocks, track lay rate trends and plan feed and sales.

Farm / unit: _____ Date: _____ By: _____

Month and year _____

Flock or house name _____

Hens on hand at start _____

Hens on hand at end _____

Total eggs collected _____

Total eggs sold _____

Total eggs culled or broken _____

Feed used this month _____

Notes on weather or management changes _____

NOTES / CALCULATIONS

TIP Fill this in from your daily log at month end and keep each month's sheet together to see seasonal patterns.
